MATERIAL INFORMATION

Silicone (silicone rubber):

A high-quality and skin-friendly material:

- odourless
- no plasticiser (phthalates)
- excellent elasticity, strength and smoothness
- high endurance of shape and colour
- heat and UV-resistant
- adapts to body temperature
- antiallergenic
- easy to clean
- hygienic

Important: silicone should not be used with other silicone products. Therefore, the use of silicone-based lubricants should be avoided.

Latex (natural rubber):

The classic material for intimate areas:

- no plasticiser (phthalates)
- very fine structure
- excellent elasticity and strength
- adapts to body temperature
- easy to clean

- hygienic

Important: customers with a latex allergy should not use latex toys. Harsh detergents and massage oils may dissolve latex.

PVC (polyvinyl chloride, soft PVC, jelly)

A versatile, popular sex toy material:

- excellent elasticity and strength
- alcohol and oil resistant
- adapts to body temperature

Important: the distinctive odour of the product disappears after airing it thoroughly.

ABS (acrylonitrile butadiene styrene, hard plastic material)

The classic material for a variety of vibrators:

- odourless
- no plasticiser (phthalates)
- excellent at transferring vibrations
- easy to clean

- hygienic

Please note: batteries should be placed firmly into ABS-vibrators, as loose-fitting batteries can increase the vibrator's noise.

PU (coating) (polyurethane)

A coating on ABS sex toys providing a skin-friendly, velvety soft characteristic:

- odourless
- no plasticiser (phthalates)
- UV-resistant

• adapts to body temperature
Important: harsh detergents and massage oils may damage polyurethane.

TPE/TPR (thermoplastic elastomers, Nature Skin, Cyber Skin, Loveclone)

Innovative material with silicone-like qualities:

- odourless
- no phthalates
- excellent elasticity and strength
- UV-resistant
- adapts to body temperature

Acrylic (-glass/Plexiglas/ polymethyl methacrylate)

A hygienic, glass-like material:

- odourless
- no plasticiser (phthalates)
- smooth surface
- excellent at transferring vibrations
- UV and oil resistant
- adapts to body temperature
- antiallergenic
- easy to clean
- hygienic

Important: acrylic sex toys should be cleaned by hand or with a smooth sponge, in order to avoid scratching the surface.

For items (especially toys) consisting of several materials: only the material(s) which come into contact with the mucous membrane is/are stated.

Items should always be stored separately to avoid reactions between the materials.
